

DUOBIOM®

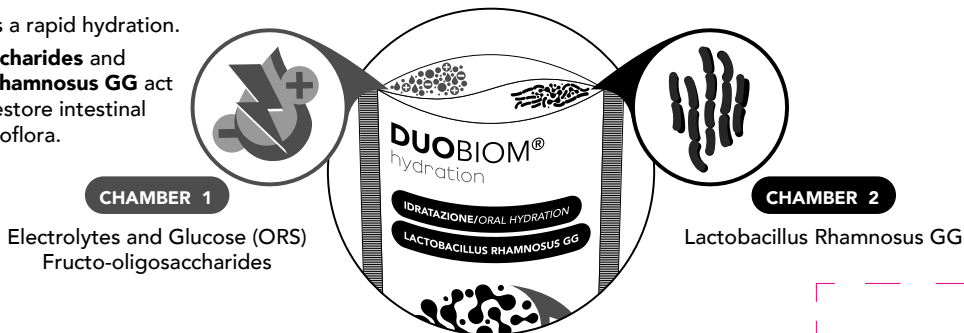

hydration

ORAL HYDRATION

LACTOBACILLUS RHAMNOSUS GG

DuoBIOM hydration is a food supplement based on **electrolytes** and **glucose (ORS)**, **fructo-oligosaccharides** (prebiotic fibers) and **Lactobacillus Rhamnosus GG**, an extensively studied and safe probiotic strain, indicated to promote the balance of intestinal bacterial flora.

- **ORS** guarantees a rapid hydration.
- **Fructo-oligosaccharides** and **Lactobacillus Rhamnosus GG** act synergically to restore intestinal barrier and microflora.

DUOCAM® TECHNOLOGY

Innovative technology that allows to obtain sachets with two separate internal chambers to avoid the interactions between components until the product is taken, guaranteeing the stability of the probiotics and the synergic action of the active ingredients.

Posology and method of use:

Children (from 4 months to 3 years): 1 sachet day

Children (from 4 to 6 years): 2 sachets day

Children (from 7 to 12 years): 3 sachets day

Adults (from 12 years): up to 4 sachets day

The recommended daily dose is 1 to 4 sachets day.

Dissolve the contents of one sachet in 200 mL of water and shake until completely dissolved.

Mandatory warnings:

Keep out of reach of children.

Do not exceed the recommended daily dose.

The supplements are not intended as a substitute for a varied and balanced diet and a healthy lifestyle.

Method of storage:

Store at temperature not above 25° C; avoid exposure to localized heat sources, sunlight and contact with the water.

The date of minimum durability refers to the product properly stored in unopened package.
